Bae Seung Ho 배승호

AI Platform Engineer | Financial AI · Generative AI · Cloud Infrastructure

qold0blop@gmail.com · baeseungho.vercel.app · github.com/BaeDoge

Professional Summary

I am a fourth-year AI Platform Engineer at KB Kookmin Bank, building and operating customer-facing AI services. Across the Financial AI Center and the Customer Contact Innovation Department, I have developed AI- and data-driven chatbots, a video consultation system, and other customer-facing services, as well as platforms that improve operational efficiency.

- **Financial AI** · Development and operation of customer- and employee-facing chatbots and callbots · Generative chatbot transition (RAG knowledge base & Agent performance evaluation), Development and operation of the KB Video Consultation Service, Development and operation of the AI Learning Management Platform
- **Cloud** · Building and operating infrastructure on Kubernetes & AWS, Reduced operating costs by 30% through Lambda scheduling and HPA, Designed network and security architecture for a network-segregated environment
- **AI·ML** · Development of finance-domain embedding models and AI Agents, Research experience in modeling with video and time-series data
- **Key Point** 10+ Data & AI competition awards, Extensive internship, research lab, and extracurricular experience during university, No employment gap; extensive hands-on experience operating customer-facing services

Experience

KB Kookmin Bank | Financial AI Center · Customer Contact Innovation · Associate 2022.12 – Present

Video Consultation System: Additional Feature Development & Operation 2026.05 – Present

- End-to-end development and operation of new features for the video consultation service, which provides remote customers with financial services such as trust product enrollment, deposit account opening, and account password changes after identity verification and product explanation

Customer Chatbot Transition to Generative AI 2026.04 – 2026.05

- Worked on a project converting the rule-based chatbot into a generative-answer Agent
- Parsed and embedded internal documents such as product manuals and terms and conditions to build a **RAG knowledge base** and took charge of **Agent answer QA**

AI Learning Management Platform Development Article 2025.06 – 2026.03

- Built a platform that provides integrated management, analysis, and visualization of the training and log data of multiple chatbots (streamlining manual work and duplicate management)
- Developed with one teammate, **performing core development including requirements analysis, infrastructure, cloud, web server, modeling, and data analysis**
- Designed an ontology structure to unify intent names and schemas that differ across chatbot channels; designed REST APIs, developed the UI, analyzed and visualized large-scale customer data, and designed and built cloud infrastructure and databases

Virtual Customer Service Agent PoC

- Solo project · Built a 3D virtual agent character in Unreal Engine and developed a facial synthesis pipeline based on NVIDIA Audio2Face

Photorealistic Avatar AI Financial Assistant (Dev & Ops) Article 2022.12 – 2024.09

- Developed and operated a customer-facing chatbot service with a photorealistic avatar; maintained the video synthesis server and cleaned and managed training data
- Developed DevOps and CI/CD scripts; service monitoring

ETRI | Medical IT Convergence Research Lab 2022.07 – 2022.08

- Developed a blood pressure estimation model based on PPG and ECG biosignals
- Multi Camera Calibration and Multi Person Skeleton Detection

Qisens AI | AI Model Development Team 2022.03 – 2022.06

- Developed and optimized an object segmentation model for aerial imagery
- Improved image preprocessing performance by applying a shadow removal model

Education

Yeungnam University | B.S. Info. & Communication Eng. (Full Scholarship) 2017.03 – 2023.02

- GPA 4.2 / 4.5 · Major GPA 4.4 / 4.5 · (2 years)
- Undergraduate Researcher, MCL Lab (2020.11 – 2022.02)
- Participated in multiple conferences of the Korean Institute of Embedded Engineering Society (KIEES) and the Korean Institute of Communications and Information Sciences (KICS)

Daegu Namsan High School 2014.03 – 2017.02

Technical Skills

AI / ML	LLM, RAG, AI Agent, Computer Vision (OpenCV, YOLO), PyTorch, TensorFlow, Transformer, LangChain, FAISS
Backend / Web	Python, FastAPI, Flask, TypeScript, JavaScript, Next.js, HTMX, REST API, C++
Cloud / DevOps	AWS, Kubernetes, Docker, Linux, Nginx, Jenkins, GitLab, Argo CD, Harbor, SonarQube
Data / Monitoring	MySQL, MongoDB, Redis, Prometheus, Grafana, WandB, Tableau, Plotly

Certifications

Data	ADsP (2025.03) · SQLD (2025.09) · DAsP (2025.10)
Programming	PCCP Lv.3 (2026.07) · PCCE Master (2024.06)
Finance	Life, Third-Sector, and Property & Casualty Insurance Planner
Languages	OPIc IM2 (2025.08)

Awards

Work Automation (RDA) Agent Development Contest Excellence Award — KB Kookmin Bank · 2025.11

Generative AI Agent Contest Encouragement Award — KB Kookmin Bank · 2024.11

AI Speaker Data Analysis Contest Excellence Award — Yeungnam University · 2022.02

Yeungnam University IoT Contest Grand Prize — Yeungnam University · 2022.01

SK AI Challenge for our Society Excellence Award — SK Inc. · 2021.12

Gyeongsangbuk-do Public Data AI Contest Excellence Award — POSTECH · 2021.12

19th Embedded SW Contest Excellence Award — Ministry of Trade, Industry and Energy · 2021.11

KIEES Conference Outstanding Presentation Paper Award — KIEES · 2021.11

KB Future Finance AI Challenge Excellence Award — KB Kookmin Bank · 2021.10

1st National Data Utilization Contest Excellence Award — Korea Coast Guard · 2021.10

AI Training Data Utilization Contest Prize — Ministry of Science and ICT · 2021.01

9th Human Rights Film Festival Story Contest Excellence Award — Korean National Police Agency · 2020.12

Training & Courses

Docker & Kubernetes Container Management (24 hours) — Korea Productivity Center · 2024.09 – 2024.10

Docker and Kubernetes for DevOps (40 hours) — Multicampus · 2023.04

AI Engineering Bootcamp (30 hours) — Codestates · 2023.02 – 2024.06

Banking Practice ×2 / **Core Job Courses** ×4 (Sales, Lending, Data/AI, Programming) — KB Kookmin Bank · 2023 – 2024

Activities & Military Service

KB IT's Your Life 7th Cohort Mentoring — KB Kookmin Bank · 2026.07 – 2026.08

ECHO Corporate Youth Social Contribution Program (completed) — KB Kookmin Bank · 2025.01 – 2025.12

Alumni Career Mentoring (Yeungnam Univ.) · **AI Lecture Mentoring** (Hanyang Univ.) — 2023.03 – 2024.10

Gyeongsan Youth Policy Participation Group — Youth policy meetings & proposals — 2020.02 – 2022.02

Hana Technology (university-affiliated IT support company) off-campus work — 2020.03 – 2022.11

Military Service Army Sergeant, honorably discharged (3-month early promotion) — 2018.02 – 2019.10
